19950 Rinaldi Street, #100
Northridge, CA 91326

Dear Dr. Nordella,

We are in awe of your courage, focus, and dedication to public safety. Please accept enclosed award in the amount of \$100.00 recognizing your ethics and refusal to be censored. Your inspirational commitment to medical excellence and quality of care despite threats and interruptions in your practice is admirable. No multi-billion-dollar insurance conglomerate or utility giant may slow the truth you have shared; You are truly unshakable.

We commend your efforts to study the seen and unseen effects of patients exposed to chemicals, and appreciate the ways you have engaged the public by sharing findings in a town hall style forum. If at any point you would care to share new data and findings, we welcome all opportunities.

In Solidarity,

Bart Ziegler, PhD Community and Environmental Medicine
