Susannah Frame  
KING 5 Television

Dear Ms. Susannah Frame,

It is a privilege to honor you with this unsolicited award from the Samuel Lawrence Foundation. We commend your tireless, courageous, and thorough reporting on the environmental disaster unfolding at the Hanford high-level nuclear waste storage facility.

At the foundation we believe the bedrock of a sustainable democracy depends on the credibility and science of journalism, despite prevailing politics or corporate malfeasance.

Your intelligent voice in journalism brings attention to an immediate environmental disaster, which our earth and future generations may never recover from. Our efforts in San Diego have been focused on the nuclear waste storage at the San Onofre site, and we salute you for the facts you have uncovered in Washington.

We welcome the opportunity to speak with you by phone.

Considerable Regards,

Dr. Bart Ziegler, PhD, President  
The Samuel Lawrence Foundation
